TIPS TO DETERMINE GALLONS-PER-FLUSH (GPF) VOLUME

Look for marks or labels near the toilet seat hinge, the underside of the tank lid, or the tank's inside back wall. GPF can also be estimated based on installation date:

- Pre-1985 are 5-7 GPF
- 1985-1994 are 3-3.5 GPF
- Post 1994 toilets use 1.6 GPF or less and should be marked with exact GPF. Toilets that use less than 1.6 GPF are NOT eligible to receive a conservation rebate.

Metric conversions: 22.73 liters = 5 gallons, 15.01 = 3.5, 6.1 = 3 GPF.

REBATE AMOUNT: Rebates are for the pre-tax cost of the toilet up to \$100.00 per toilet. Preauthorization may be required for more than 3 rebates. Toilets costing less than \$100.00 will be rebated the full pre-tax purchase price. Toilet costs exceeding \$100 must be paid by the applicant.

VERIFICATION OF INSTALLATION: The City of Hollywood reserves the right to verify the installation of new toilet and your signature indicates agreement to a post-installation inspection. Inspections will be scheduled Monday through Thursday.

PROGRAM DURATION: Toilets purchased prior to 2015 are NOT eligible for a rebate after Jan., 2020. Applications are accepted on a first-come, first-served basis, while funding is available or until the program is discontinued. The City of Hollywood, at its discretion, may, at any time modify, suspend or terminate this program without prior notice.

Disclaimers: The City of Hollywood reserves the right to reject any application that does not meet the requirements of this rebate program. The City of Hollywood makes no representations or warranties as to the condition, quality, effectiveness, operability or cost of installing or maintaining a high efficiency toilet subject to this program, or removing or disposing of a low efficiency toilet, associated parts, building materials, labor and equipment in connection therewith and, to the extent not prohibited by law, disclaims all express and implied conditions, representations and warranties related thereto, including without limitation, any implied warranty of merchantability or fitness for a particular purpose.

Limitation of Liability/Release: Applicant understands and agrees that, to the extent not prohibited by law, in no event shall the City of Hollywood, its officials, officers, employees or agents be liable for any claimed or actual damages or losses of any kind, however caused and regardless of the theory of liability, related in any way to this rebate incentive program, even if the City of Hollywood has been advised of the possibility of such damages or losses. To the extent not prohibited by law, applicant assumes all risks associated with this program, including without limitation, all risks associated with purchase, installation and maintenance of an HET model subject to this program (including without limitation the risk of not realizing cost savings as a result of converting to a high efficiency toilet model), and the removal and disposal of old toilets, associated parts, building materials, labor and equipment in connection therewith. Applicant releases the City of Hollywood, its officials, officers, employees and agents from any and all claims for damage or death or injury to any persons or property arising in any way from this rebate program, including the installation of an HET, associated parts, building materials, labor and equipment subject to this program (including without limitation the use or operation thereof), or the removal or disposal of any toilet, associated parts, building materials, labor and equipment in connection therewith, other than those caused solely by the willful or grossly negligent acts or omission of the City of Hollywood.
